## Who we are

---

 **MedAssist Bangladesh** provides nationwide emergency ambulance solutions, backed by over 7 years of expertise. Our specialized fleet includes Level-6 ACLS (ICU-equipped) and Level-4 BLS units. Each unit is staffed by qualified doctors, paramedics, and trained operators dedicated to managing critical and trauma cases with utmost efficiency and care.

### Our Mission

**To continually deliver top quality healthcare service across Bangladesh to promote wellness, with the highest value for all concerned.**

### Our Vision

**To create and deliver best quality healthcare services at affordable cost consistently and to become the pioneer in healthcare facilitation across Bangladesh**

## What we do

### Ground Ambulance Coordination

We coordinate every detail of a patient's ground transport. We provide real-time updates from pickup to a safe arrival.

### Mortal Remains Transfer

We ensure the respectful and seamless transfer of mortal remains.

### Medical Assistance Services

We specialize in providing end-to-end medical assistance for patients with international insurance coverage — from hospital estimation, approval coordination, and surgery management to payment settlement and documentation submission.

### Medical Acceptance Letter

We arrange and collect medical acceptance letters directly from hospitals on behalf of patients. Ensuring a smooth and hassle-free transfer and admission process.

### Airport Tarmac Access

We provide complete paper processing for ambulance entry inside the airport to receive patients directly from the aircraft. Ensuring quick, secure, and hassle-free patient

### 24/7 Online Support

We provide 24/7 medical assistance and ambulance support with seamless online communication. Always ready to respond, anytime, anywhere.

## Our Commitments

**To Provide:**

- ➔ **Our exceptional service of Ground Ambulance to you and your client.**
- ➔ **24/7 Alarm Center Support for Emergency calls for Ground Ambulance**
- ➔ **An Experienced and well-trained team for the transfer**
- ➔ **A well latest and equipped ambulance vehicle for the transfer**
- ➔ **Cost Efficient and efficient service option**

## Our Core Medical Assistance Workflow

**MedAssist Bangladesh** provides comprehensive, end-to-end medical assistance for patients with international insurance coverage. Our process begins with the careful collection and review of medical reports, allowing for an accurate hospital evaluation and cost estimation. We then handle all coordination with insurance partners to secure treatment approvals and ensure a smooth hospital admission.

During treatment, our team provides continuous in-hospital support, including interpreter and logistical services, while keeping families and insurers informed with regular progress reports. We meticulously verify all hospital bills for transparency and manage efficient payment settlements. After discharge, we arrange follow-ups to ensure continuity of care, culminating in the submission of all necessary documents to the medical assistance company for a complete and timely case closure.

### 135+ Successful Medical Cases:

Our track record speaks for itself. We've successfully managed over 135+ complex medical cases, providing end-to-end support for our clients.

### 1900+ Ambulance Transfers:

We have extensive experience in both local and international ambulance transfers, ensuring safe and timely transport for patients.

### Trusted Hospital Network:

We maintain strong relationships with over 130+ hospitals in Bangladesh, giving us access to a wide range of medical services and specialists.
